**INSTRUCTIONS FOR SUBMITTING A CLAIM
FOR A CERCLA RESPONSE ACTION**

This form is for claims against the Hazardous Substances Superfund as authorized by sections 111 (a)(2) and 112 of the Comprehensive Environmental Response, Compensation and Liability Act of 1990 (CERCLA). Claims can only be awarded for reasonable response costs incurred pursuant to a preauthorization decision document (PDD) issued by EPA. The regulatory procedures for obtaining preauthorization from EPA and for the submission and award of claims are found at 40 CFR Part 307.

The public reporting and recordkeeping burden for this collection of information is estimated to average 44 hours per response or to range from 29-58.5 hours per respondent annually. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, OPPE Regulatory Information Division, U.S. Environmental Protection Agency (2137), 401 M St., S.W., Washington, D.C. 20460.

Include the OMB control number in any correspondence. Do not send the completed form to this address.

The claimant bears the burden for demonstrating that his response costs should be reimbursed. Consequently, all claim submissions should be factually thorough, well-documented and based on sound analysis. Due to the complexity of the issues involved, it is in the claimant's best interest to organize the submission so that it can be easily read by EPA officials.

In many cases, the spaces provided on this form will be insufficient for a full presentation of the information solicited. In such circumstances, the claimant shall attach typewritten sheets and provide clear cross-references between the items on this form and the attachments.

A number of items will also require that the claimants provide appendices. In these appendices, the claimant shall supply sufficient documentation to support the statements presented in the form. Since it would be impractical and undesirable to include all supporting data, the appendices should usually consist of detailed summaries of the primary data. However, the original documentation should be identified, catalogued and available for presentation, if requested. As with the attachments, the claimant shall provide clear cross-references between this form and the appendices.

Claimants should consult 40 CFR Section 307.22 (g) to assert any claims of business confidentiality.

When completed, this form should be sent to: U.S. Environmental Protection Agency
401 M Street, S.W.
